

National Engineers
Week 2004
February 22-28

2004 Engineers Week Dinner and Awards Banquet

Thursday, February 12, 2004

Keynote Address

"Fire in Space"

Dr. Gregory Linteris, Ph.D.
National Institute of Standards and Technology
ASME Distinguished Lecturer

Greg Linteris, the combustion science Payload Specialist on the The Microgravity Sciences Mission (MSL-1), STS-83 and STS-94, will share his experiences on the missions. A major theme of the talk is that both science in general, and space travel in particular, are metaphors for those things that can only be achieved through human cooperation. Shared knowledge, cooperation, and teamwork produce the best that civilization has to offer.

Hanover Manor

16 Eagle Rock Ave., E. Hanover, NJ, 973-992-7425
