Some of our helpful staff.

Mission

We understand that the internet can be a confusing place and even these days not everyone is tech-savvy, that is why BWD exists. We are a subdivision of Blakely Corporation whose main purpose is to help our customers create new websites for their companies or optimize their current sites. We have a highly trained staff that is both knowledgeable and friendly, they will take care of your every computer need and we also offer the chance to help our customers learn some of the technical aspects.

If you would like to learn more about Blakely Web Design please visit our site at www.blakelywebdesign.com. Also if you are interested in some of the other services offered by our parent group, Blakely Corporation please don't forget to go to www.blakelycorporation.com where customer service is our number one concern.

History

BWD is a sub-division of the Blakely Corporation which was started in 2006 by Jake Blakely. BWD was started in 2008 to focus specifically on Website design and development, while the rest of the Blakely Corporation could branch out in other directions. The Blakely Corporation plans to expand even farther into other venues in the coming years, most of which revolve heavily around science and technology. Below is the first website BWD ever built, which is a very profitable watch vender.

Features

BWD gather information about your company to display to customers on the site so your customers will be fully informed as soon as they arrive to your site. We also offer logo design, so even if you don't want your entire site redesigned we can create a new company logo for you. We believe in helping our customers get customers, no matter what it takes. Our customer service staff is willing to take your calls 24/7 and help with any complaints or issues you may have.
