

Course Policies and Assignment deliverables

- What to turn in:* Handwritten or typed solutions will be accepted. Solutions must be readable, clear, concise and complete.
- Extension policies* **No extension** will be granted for the assignments for any reason as only the best 4 of 5 assignments are counted. Each HW will be **handed out** on a Wednesday and will normally be due by the end of class on a following Wednesday. If you think you won't be present in class on that Wednesday turn the assignment in earlier at instructor's office. The course calendar provides additional information.
- Grade questions* Check the marks in an assignment or an exam and report errors promptly. Make sure you report such problems to the instructor no later than December 13.
- Final Grade* Normally, the final grade is decided based on the 0-1000 point performance in the assignments and exams. If there is a significant discrepancy between a student's performance in the in-class exams and assignments, the instructor may choose to ignore the assignment contribution.
- Homework Collaboration policy* The work you turn in **MUST BE** your own personal work, composed and written by you. If you talk a problem with a fellow student cite this clearly in your homework (name the fellow student before the solution of the problem in question). Your homework will then be compared to the other student's work to verify that your solution was written by you and reflect your own personal effort. If you don't report it, it will be considered an illegal form of collaboration.
- Quiz/Exam Collaboration policy* Collaboration of any kind is **NOT** allowed in the exams.
