

## 1.1 CONTACT INFORMATION

<b>Instructor:</b>	Alex Gerbessiotis
<b>E-mail:</b>	alexg+cs610@njit.edu
<b>Tel:</b>	(973)-596-3244
<b>Office:</b>	GITC 4213, 4th floor
<b>@NJIT "Office" Hours:</b>	Thu, Fri 10:10-11:30
<b>Assistant:</b>	Check course web-page
<b>LMS:</b>	Learning Management System to be used is canvas.njit.edu
<b>Course WebPage:</b>	<a href="http://web.njit.edu/~alexg/courses/cs610/index.html">http://web.njit.edu/~alexg/courses/cs610/index.html</a>

## 1.2 COURSE ADMINISTRATION

**CourseWork:** 3 exams (Ex1-Ex3), 3 Homeworks (HW1-HW3), Programming project (PrP);

Points:  $1000\text{points} = \text{PrP}(120) + \text{Ex1}(100) + \text{Ex2}(360) + \text{Ex3}(360) + \text{HW}(60)$ ;  
SelfAssessments (for practice and some bonus points)

**HW:** Three homeworks, due **BEFORE 12 o'clock noon, a 12PM for Canvas**; submission through canvas.njit.edu; see Calendar Sec. 1.4

**PrP:** A programming project, 120pt. **BEFORE 12 o'clock noon, a 12PM for Canvas**; submission through canvas.njit.edu; see Calendar Sec. 1.4

**Exams:** See Appendix D.2 and also Document P in canvas Announcements. Dates in Calendar 1.4. All in paper. Exam 1 (short quiz) in classroom, 50min, Exam 2 (midterm) in classroom, 120min, Exam 3 (final) where and when as specified by the Registrar, 120min. All closed everything and cumulative. A math calculator is allowed. A student who leaves early without permission earns a 0 in the exam. *In case NJIT declares an emergency (e.g. Covid), an exam will become, time permitting, a canvas exam using ProctorU Record+ for proctoring. You are thus expected before 18:00 of the 3rd Friday of the semester to either acquire ProctorU credentials or check that your existing credentials still work with NJIT, and also test that your equipment still works with the ProctorU setup. Hopefully this option will not be exercised. Read DocumentP about canvas and ProctorU.*

*NJIT computer policies:* <https://ist.njit.edu/student-computers>.

## 1.3 BASELINE COURSE SYLLABUS

**Course:** CS610. Data structures and algorithms.

**Credits:** 3 credits.

**Prerequisites:** (CS114 and CS241) or equivalently (CS505 and CS506) or equivalent.

**Description:** Intensive study of the fundamentals of data structures and algorithms. Presents the definitions, representations, processing algorithms for data structures, general design and analysis techniques for algorithms. Covers a broad variety of data structures, algorithms and their applications including linked lists, various tree organizations, hash tables, strings, storage allocation, algorithms for searching and sorting, and a selected collection of other algorithms.

**Textbook:** [Recommended, designated] Algorithm Design and applications. M. T. Goodrich and R. Tamassia. Wiley, 2014, ISBN 978-1-118-33591-8

*Referred to hereafter as GT.*

**Learning Outcomes:**

1. Learn how and be able to understand and formulate the input-output relationship of computational problems, and formulate the requirements, data and operations of abstract data types (ADT).
2. Learn how and be able to asymptotically compare functions using  $o, O, \omega, \Omega, \Theta$ , and be able to solve recurrences using the master, iteration/recursion tree, and the substitution methods.
3. Learn how and be able to describe, derive and determine, the asymptotic performance of algorithms for computational problems and operations on elementary and more advanced data structures.
4. Learn how they operate and be able to understand fundamental algorithms and data-structures, and understand their characteristics for problems related to searching, sorting, selection, operations on numbers and polynomials and matrices and graphs. Be able to choose among a variety of similar ones based on problem/program specification and requirements.
5. Learn how and be able to compose more complex algorithms using as building blocks the fundamental algorithms introduced in class.
6. Learn how and be able to compose more complex algorithms using the algorithmic design techniques introduced in class.
7. Learn how and be able to compose advanced data structures using as building blocks the elementary data structures introduced in class.
8. Learn how and be able to implement in a high-level imperative language some of the algorithms and data structures introduced in class in the form of a programming project of considerable complexity.
9. Learn how and be able to understand and possibly identify that some problems are complex and are not susceptible to 'easy' solutions. Learn how and be able to understand the benefits and complexities of using randomness in computation.

**Topics (with references to chapters of the designated textbook):**

- T1.** Ch1-1.1.4,1.2-1.3,2.1-2.3,12.2-12.3:Introduction.Algorithm Analysis. Asymptotic notation. Sorting.Algorithm Design Techniques. Elementary data structures.
- T2.** Ch1.1.4-1.1.6, 11.1:Asymptotic growth of functions; Recurrence relations.
- T3.** Ch1.4,2.3-2.4,7.1-7.2:Graphs and their representation. Traversals.UnionFind.
- T3.** Not in GT:Web-page Ranking: Google's PageRank, Kleinberg's HITS algorithm.
- T4.** Ch6-6.3: Hashing (by chaining and open-addressing).Google Example.
- T5.** Ch 5-5.5: Heaps and Priority Queues.Greedy Method.Huffman codes.
- T6.** Ch8.2-8.3,9.1, 10.3: QuickSort. Complexity of sorting. Linear-time sorting.
- T7.** Ch 9.2, 9.3: Selection; Order statistics
- T8.** Ch 13, 14, 15: Graph Searching (DFS, BFS). Strong connectivity. Topological sorting. Shortest paths on graphs. Minimum cost spanning trees.
- T9.** Ch 11.2-11.3, 12.1: Integers, Polynomials, Matrices. Complexity issues: WORD, BIT, SLP models.
- T10.** Ch3-3.1, 4-4.2: Binary Search Trees (BST) and Balanced BSTs: search trees of bounded height.
- T11.** Ch20-20.3: Search Trees of Bounded Depth (and height)
- T12.** Ch23-23.4: String and Pattern matching algorithms (if time permits).
- T13.** Ch17.1-17.2.1: Theory of NP-completeness: P, NP, co-NP, NPC, NP-hard.

## 1.4 CALENDAR

Spring 2025				
Week	Tu	Fr	Out	In/Comments
W01	01/21	01/24	PrP out	Class starts
W02	01/28	01/31	HW1 out	Material due before noon
W03	02/04	02/07		
W04	02/11	02/14		HW 1 before noon classday
W05	02/18	02/21	<b>Exam1</b>	Class follows Exam1
W06	02/25	02/28	HW2 out	
W07	03/04	03/07		
W08	03/11	03/14		HW 2 before noon classday
W-	03/18	03/21	No classes	Spring Break
W09	03/25	03/28	<b>Exam2</b>	Class follows Exam 2
W10	04/01	04/04	HW 3 out	
W11	04/08	04/11		
W12	04/15	—	PrP Before Noon	on 04/17 (not a classday)
W13	04/22	04/25		HW 3 before noon classday
W14	04/29	05/02		
W15	—	05/07	Tue is NJIT/Thu	Wed 05/07 is NJIT Friday
W16	05/13	05/16	<b>Exam 3</b>	<b>Contact Registrar</b>

**Any modification/deviation from the calendar and its items will be done in consultation with the attending a class students and be posted on the course web-page. It is imperative that students check the course web-page regularly and frequently. Exceptions are as announced by the Provost's Office.**

## 1.5 COURSE POLICIES

**OARS:** If you need special accommodations, contact the Office of Accessibility Resources and Services, KUPF 201, to discuss your specific needs. A Letter of Accommodation Eligibility from OARS authorizing your accommodations will be required and should be received by us at least two weeks plus two days before the first exam, if it also relates to a ProctorU exam, otherwise seven days before the first non ProctorU exam.

**MISSING:** If you miss a class, you make up for lost time. No PrP extensions for any reason, medical or otherwise; submit early. If you miss an exam you **MUST CONTACT** the Dean of Students (DOS) within 2 working days from the day the reason for the absence is lifted with all necessary documentation and send an email of your intent and absence. Do not submit documentation to the instructor: it is a private matter between you and the Dean of Students. The maximum accommodation period will be the number of missing days to the exam date: it is imperative then that you contact DOS even before the 2 working day period has expired if the accommodation period would be shorter. For Exam1, a DOS approval will get you a scaled Exam2 grade for Exam1. No makeup exam for a ProctorU exam.

**Canvas Note:** Canvas assigns points to non CourseWork. Ignore canvas grade aggregations. Because canvas has synchronization issues, point-assigned material released through canvas will be of limited availability and visibility. **Make backups if needed (e.g. take screenshots).**

## 1.5 COURSE POLICIES (continued)

**Grading:** For paper exams if you use pencils to write down your answers do not complain about grading AFTER the EXAM. No Scratch paper. Work submitted will be graded for clarity, conciseness and correctness: be brief and to the point. Material covered in class and appearing in the relevant notes and chapters of the designated textbook can be used without proof. Everything else requires a proof (justification). For PrP-grading see Document 3 (Testing and Grading).

**Grades:** Check marks and report errors promptly. **Resolve any issues WITHIN 2 CALENDAR WEEKS and before the first Reading Day** starting from the day an exam or homework is released or returned. For PrP or the final, within 3 calendar days from the day grades are posted on canvas or Banner. Talk to the grader first, and then to the instructor. The final grade is decided on a 0 to 1000 point scale. Assuming no violation of the Collaboration policy: around 850 points or more is an A, less than 500 points is F, and thus 500 points or more is C or better.

**Incomplete:** A grade of I(incomplete) is given in rare cases where work cannot be completed during the semester due to documented long-term illness or absence (e.g. unexpected national guard duty). A student needs to be in good standing (i.e. passing the course before the absence). An email (in lieu of a written letter) with a timeline of what is needed to be done will be sent to the student and the Department Chairperson. Not showing up in the final will probably get you an F rather than an I.

**Collaboration:** **Collaboration of any kind (in HW, Exams, PrP) is PROHIBITED. Students must turn in work that has fully been composed and written by them and no-one else. Finding an answer on the Internet, Web, on a piece of paper, or otherwise, or it is product of someone else's work, or it is (partly or fully) common with another student submission, in the same or other section/course risks punishment as outlined by the University. All parties of such interaction receive a 0 and letter grade is lowered by one or two levels. The work you submit must be the result of your own mental effort.**

**Devices:** Power down (equivalent to removing battery) and switch off (not just silence) mobile and other devices including wearables (e.g. iwatch) and place them in a zippered bag or zippered backpack or on the floor screen facing down. (See article XI, student contact code.) **IF A STUDENT GETS CAUGHT TOUCHING SUCH A DEVICE (on or off) during an exam, the exam receives a 0. DEVICES MUST BE OFF and NOT ON YOU. For ProctorU exams "ON YOU" means anywhere viewable including at a distance of less than 6ft. A not completely powered down device of yours is assumed to be "ON YOU" independently of proximity.** Note that the use of a device without the express permission of the instructor is considered cheating (Article XI).

**Email/SPAM:** Use an NJIT e-address to send email to the course email address (Appendix G).

Provost statement: "Academic Integrity is the cornerstone of higher education and is central to the ideals of this course and the university. Cheating is strictly prohibited and devalues the degree that you are working on. As a member of the NJIT community, it is your responsibility to protect your educational investment by knowing and following the academic code of integrity policy that is found at: <http://www5.njit.edu/policies/sites/policies/files/academic-integrity-code.pdf>. Please note that it is my professional obligation and responsibility to report any academic misconduct to the Dean of Students Office. Any student found in violation of the code by cheating, plagiarizing or using any online software inappropriately will result in disciplinary action. This may include a failing grade of F, and/ or suspension or dismissal from the university. If you have any questions about the code of Academic Integrity, please contact the Dean of Students Office at [dos@njit.edu](mailto:dos@njit.edu)."

Also, the following link is provided [http://www5.njit.edu/provost/sites/provost/files/lcms/docs/Best\\_Practices\\_related\\_to\\_Academic\\_Integrity.pdf](http://www5.njit.edu/provost/sites/provost/files/lcms/docs/Best_Practices_related_to_Academic_Integrity.pdf)

The NJIT Academic Integrity Code will be upheld with violations reported to the Dean of Students.
