

Homework for Math 664 #6

Due March 6, 2009

Cody and Smith textbook fifth edition

1. Page 117, problem number 3.9. State the null and alternate hypothesis. Make decision using the McNemar test and draw conclusion.
2. Page 117, problem number 3.10. Is there an agreement between the two methods? Why or why not? Comment on the degree of agreement, e.g. see page 100 “moderate agreement”.
