

# Curriculum Vitae<sup>1</sup>

Horacio G. Rotstein, PhD

Federated Department of Biological Sciences  
New Jersey Institute of Technology (NJIT) /  
Rutgers University  
University Heights, Newark, NJ, 07102

horacio@njit.edu  
<http://web.njit.edu/~horacio>  
Tel: (973) 596-8460

---

## Professor,

Mathematical Biology & Computational Neuroscience,  
Federated Department of Biological Sciences,  
NJIT / Rutgers University.

## Graduate Faculty Member,

Behavioral Neuroscience (BNS) Program,  
Center for Molecular and Behavioral Neurosciences (CMBN),  
Rutgers University.

## Education

- **Doctor of Philosophy (PhD)**  
Interdisciplinary Committee of Applied Mathematics  
**TECHNION - Israel Institute of Technology**, Haifa Israel, 1998  
**Thesis:** Phase transition dynamics with memory
- **Master of Science (MSc) in Applied Mathematics**  
Interdisciplinary Committee of Applied Mathematics  
**TECHNION - Israel Institute of Technology**, Haifa, Israel, 1994  
**Thesis:** Coagulation equations with cluster-wall interactions
- **Licenciado en Química** (5 years program)  
Departamento de Química e Ingeniería Química  
**UNS - Universidad Nacional del Sur**, Bahía Blanca, Argentina, 1989  
**Thesis:** evaluation of an AgI electrochemical cell as a I<sub>2</sub>(g) sensor

**Languages:** Spanish, Hebrew and English (fluent, languages of instruction). Basic knowledge of French and Italian.

---

<sup>1</sup>Updated July 23, 2022

## Courtesy/Visiting Appointments

**Corresponding Investigator,**  
Consejo Nacional de Investigaciones Científicas y Técnicas,  
**CONICET, Argentina.**

**Visiting Scholar / Academic,**  
Courant Institute of Mathematical Sciences ,  
**New York University.**

**Visiting Reseacher,**  
Neuroscience Institute,  
NYU Grossman School of Medicine,  
**New York University.**

**Affiliated Investigator,**  
Instituto del Cálculo,  
**CONICET & University of Buenos Aires,**

## Professional Experience

- 2019 - 2020     **Interim Co-Director,**  
Institute for Brain and Neuroscience Research (IBNR),  
**New Jersey Institute of Technology,** Newark, NJ, USA.
- 2017 - Present   **Professor,**  
Mathematical Biology & Computational Neuroscience,  
Federated Department of Biological Sciences,  
**Rutgers University & New Jersey Institute of Technology,**  
Newark, NJ, USA.
- 2015 - 2017     **Professor,**  
Department of Mathematical Sciences,  
**New Jersey Institute of Technology,** Newark, NJ, USA.
- 2016 - Present   **Corresponding Investigator,**  
**Consejo Nacional de Investigaciones Científicas y Técnicas**  
(CONICET), Argentina.
- 2015             **Visiting Professor,**  
Instituto del Cálculo, Facultad de Ciencias Exactas y Naturales,  
**Universidad de Buenos Aires,** Buenos Aires, Argentina.
- 2012 - Present   **Visiting Scholar/Academic,**  
Courant Institute of Mathematical Sciences,  
**New York University,** New York, NY, USA
- 2011- 2015      **Associate Professor,**  
Department of Mathematical Sciences,  
**New Jersey Institute of Technology,** Newark, NJ, USA.

2006 - Present **Graduate Faculty Member**,  
Behavioral Neuroscience (BNS) Program,  
Center for Molecular and Behavioral Neurosciences (CMBN),  
**Rutgers University**, Newark, NJ, USA.

2006 - 2017 **Graduate Faculty Member**,  
Federated Department of Biological Sciences,  
**Rutgers University - NJIT**, Newark, NJ, USA.

2006 - 2011 **Assistant Professor**,  
Department of Mathematical Sciences,  
**New Jersey Institute of Technology**, Newark, NJ, USA.

2004 - 2006 **Research Assistant Professor**,  
Center for Biodynamics and Department of Mathematics,  
**Boston University**, Boston, MA, USA.

2001 - 2004 **Research Associate and Lecturer**,  
Center for Biodynamics and Department of Mathematics,  
**Boston University**, Boston, MA, USA.

1999 - 2001 **Postdoctoral fellow**,  
Department of Chemistry and Volen Center for Complex Systems,  
and **Lecturer**, (2000-2001), Department of Mathematics,  
**Brandeis University**, Waltham, MA, USA.

1998 - 1999 **Technion Postdoctoral Research Fellow / Instructor**,  
Department of Mathematics,  
**TECHNION** - Israel Institute of Technology, Haifa, Israel.

1998 - 1999 **Lecturer**,  
School of Mathematical Sciences,  
**Tel Aviv University**, Israel.

1991 - 1998 **Teaching Assistant**,  
Department of Mathematics,  
**TECHNION** - Israel Institute of Technology, Haifa, Israel.

1990 - 1991 **Instructor**,  
Department of Chemistry,  
**TECHNION** - Israel Institute of Technology, Haifa, Israel.

1989 - 1990 **Full-Time Teaching and Research Assistant**,  
Department of Chemistry and Chemical Engineering,  
**UNS** - Universidad Nacional del Sur,  
Bahía Blanca Argentina.

1988 - 1989 **Teaching Assistant**,  
Department of Mathematics,  
**UNS** - Universidad Nacional del Sur, Bahía Blanca, Argentina.

## Administrative & leadership positions

- 2020 - Present **Scientific Coordinator (Chair)**, Scientific Committee (Executive Board).  
Network of Argentine Scientists in the USA, Northeast.
- 2019 - 2020 **Interim Co-Director**,  
Institute for Brain and Neuroscience Research (IBNR),  
**New Jersey Institute of Technology**, Newark, NJ, USA.
- 2018 - 2020 **Chair**, Institutional Review Board (IRB).  
**New Jersey Institute of Technology**.
- 2017 - 2019 **Chair**, Mathematical Neuroscience Group.  
**Society for Mathematical Biology (SMB)**.
- 2017 **Chair**, Faculty Senate Standing Committed on Academic Outreach.  
**New Jersey Institute of Technology**.
- 2016 - 2020 **Member**, Scientific Committee (Executive Board).  
Network of Argentine Scientists in the USA, Northeast.
- 2014 - 2016 **Member**, Consulting Committee.  
International Programs of Scientific and Technological Cooperation (CAPICCyTE).  
Ministry of Science, Technology and Productive Innovation. Argentina

## Publications

### Theses

- [1] **Horacio G. Rotstein**, Phase transition dynamics with memory. **PhD thesis. TECHNION** - Israel Institute of Technology, 1998. Supervisors: Alexander A. Nepomnyashchy and Simon Brandon.
- [2] **Horacio G. Rotstein**, Coagulation Equations with Cluster-Wall Interactions. **MSc thesis. TECHNION** - Israel Institute of Technology, 1994. Supervisors: Amy Novick-Cohen and Rina Tannenbaum.
- [3] **Horacio G. Rotstein**, Evaluacion de una Pila de  $AgI(s)$  como Sensor de  $I_2(g)$ . **Fifth year Undergraduate Thesis** (Advanced Chemistry Lab), **UNS** - Universidad Nacional del Sur, 1988. Supervisor: Julio C. Bazan.

## Book Chapters

- [1] **Horacio G. Rotstein, Rina Tannenbaum,** Polymer-metal nanocluster composites (2002). Invited contribution to “Advances in Nanophase Materials and Nanotechnology (Vol. Functionalization and Surface Treatment of Nanoparticles) edited by Marie-Isabelle Baraton, American Scientific Publishers.

## Preprints (arXiv, bioRxiv; not yet published in peer-reviewed journals)

- [1] **Daniel Levenstein, Veronica A. Alvarez, Asohan Amarasingham, Habiba Azab, Richard C. Gerkin, Andrea Hasenstaub, Ramakrishnan Iyer, Renaud Jolivet, Sara Marzen, Joseph D. Monaco, Astrid A. Prinz, Salma Quraishi, Fidel Santamaría, Sabyasachi Shivkumar, Matthew F. Singh, David B. Stockton, Roger Traub, Horacio G. Rotstein\*, Farzan Nadim\* , A. David Redish\***. On the role of theory and modeling in neuroscience (2020). arXiv:2003.13825 [q-bio.NC]. (\* co-senior authors.)
- [2] **Horacio G. Rotstein, Fidel Santamaría**. Present and future frameworks of theoretical neuroscience: outcomes of a community discussion (2020). arXiv:2004.01665 [q-bio.NC].

## Submitted & under review (peer review process)

- [1] **Daniel Haggerty, Horacio G. Rotstein, Natalie Adams, Vasilejos Glykos, Nancy J. Kopell, Miles A. Whittington, Fiona E. N. LeBeau**. Noradrenergic modulation of theta frequency activity in the hippocampus *in vitro*: lasting effects mediated via beta-adrenergic receptors ( $\beta$ -AR) (2013).
- [2] **Daniel Levenstein, Veronica A. Alvarez, Asohan Amarasingham, Habiba Azab, Richard C. Gerkin, Andrea Hasenstaub, Ramakrishnan Iyer, Renaud Jolivet, Sara Marzen, Joseph D. Monaco, Astrid A. Prinz, Salma Quraishi, Fidel Santamaría, Sabyasachi Shivkumar, Matthew F. Singh, Roger Traub, Horacio G. Rotstein\*, Farzan Nadim\* , A. David Redish\***. On the role of theory and modeling in neuroscience (2022). (\* co-senior authors.)

## Protopapers (to be submitted to peer reviewed journals)

- [1] **Guillermo Villanueva Benito, Smita More-Potdar, Jorge Golowasch, Horacio G. Rotstein** Heterogeneity and level sets of neuronal activity
- [2] **Andrea Bel, Horacio G. Rotstein** Filter interaction in networks of non-oscillatory cells: communicationance
- [3] **Horacio G. Rotstein, Eran Stark**. Post-inhibitory rebound interacts with preventing or deleting mechanisms to generate theta spiking resonance in hippocampal CA1 pyramidal cells (2019).
- [4] **Casey Diekman, Emel Khan, Yong-Ick Kim, Horacio G. Rotstein**. Light-driven entrainment of a cyanobacteria circadian oscillator: a dynamic analysis (2020).
- [5] **Horacio G. Rotstein**. Interplay of different modeling frameworks for neuronal oscillations and resonance.
- [6] **Nicolas Brunel, Horacio G. Rotstein**. Resonance: from neurons to networks.

- [7] **Rodrigo F. O. Pena, Horacio G. Rotstein.** Biophysics and dynamics shape the cross-correlation properties of monosynaptic connections in the presence of background noise and oscillatory modulation.
- [8] **Rodrigo F. O. Pena, Horacio G. Rotstein.** Mechanisms of generation of theta-band resonance in a neocortical circuit.
- [9] **Stark, E. and Rotstein, H. G.** Firing rate models and Leaky integrate-and-fire networks have similar resonant properties generated by different biophysical and dynamic mechanisms (2022).
- [10] **Ulises Chialva, Horacio G. Rotstein.** Interaction of segregated mechanisms of resonance due non-uniform voltage distributions across the neuron: interplay between ionic currents and the spatial structure of cell (2022)
- [11] **Yugarshi Mondal, Rodrigo F. O. Pena, Horacio G. Rotstein.** Frequency-dependent filters: synaptic and postsynaptic resonance (2022)

## Teaching Material

- [1] **Tipheret Saadon and Horacio G. Rotstein,** Problems and Solutions for Partial Differential Equations Courses (in Hebrew). **TECHNION - Israel Institute of Technology.**

## Research Grants awarded

- **Faculty Seed Grant, NJIT.** CoPrincipal Investigator. *A computational analysis of cerebellar input to midbrain dopaminergic centers*, 7/1/21 to 6/30/22 Joint work with Farzan Nadim
- **National Science Foundation (NSF) Grant, IOS-2002863.** Principal Investigator. *Collaborative Research: Dynamic interactions of individual neurons in supporting hippocampal network oscillations during behavior*, 1/10/2020 to 9/30/2025. Jointly with Xue Han (Boston University).
- **National Science Foundation (NSF) Grant, FAIN-1820631.** Principal Investigator. *Workshop: Present and Future Theoretical Frameworks in Neuroscience*, 7/1/2018 to 6/30/19
- **Faculty Seed Grant, NJIT.** Principal Investigator. *The Response of Biological Oscillatory Networks to Periodic Signals*, 10/1/17 to 6/30/18
- **National Science Foundation (NSF) Grant, DMS-1715808.** Co-Principal Investigator. *The role of neuronal ionic current correlations on network activity*, 8/1/17 to 7/31/20.

- **National Science Foundation (NSF) Collaborative Research in Computational Neuroscience (CRCNS) Grant, DMS-1608077.** Principal Investigator. *US-Israel Research Proposal: Network resonance: revealing the neuronal mechanisms*, 9/1/16 to 8/31/21. Jointly with Eran Stark (Tel Aviv University).
- **National Science Foundation (NSF) Grant, DMS-1313861.** Principal Investigator. *Mechanisms of frequency preference in neurons and networks: biophysics and dynamics*. Mathematical Biology Program, Division of Mathematical Sciences (DMS), 9/1/13 to 8/31/17.
- **National Institutes of Health (NIH) Grant, NINDS R56NS085330.** Principal Investigator (with J. Golowasch, multiple PIs). *Ionic conductance correlations tune neuronal network activity to natural inputs*, 9/30/14 to 8/31/15.
- **National Science Foundation (NSF) Grant, DMS-0817241.** Principal Investigator. *Rhythmic oscillations in the entorhino-hippocampal system: biophysics and dynamics*. Mathematical Biology Program, Division of Mathematical Sciences (DMS) and Division of Integrative Organismal Systems, (IOS), 7/1/08 to 6/30/13
- **National Science Foundation (NSF) Grant, Undergraduate Biology and Math Training Program (UBMTP), DMS-0926232.** Investigator. (PI: V. Matveev, CO-PIs: J. Golowasch and G. Russell), 9/1/09 to 9/1/12.

## Editorial / Peer Review Activity

- **Associate Editor.** *Frontiers in Computational Neuroscience*. (2021 - present).
- **Associate Editor.** *BMC Neuroscience*. (2021- present).
- **Review Editor.** *Frontiers in Systems Biology - Integrative Systems Neuroscience*. (2021 - present)
- **Recommender (Journal Editor).** *Peer Reviewer Community (PCI) Math Comp Biol*. (2020 - current).
- **Guest Editor and Coordinator.** *Chaos (An Interdisciplinary Journal of Non-linear Science)*. Focus Issue on Mixed-Mode Oscillations: Modeling, Computation, and Experiment (2007-2008). Joint work with Tasso J. Kaper and Mörten Brons.
- **Guest Editor and Coordinator.** *Chaos (An Interdisciplinary Journal of Non-linear Science)*. Focus Issue on Rhythms and Dynamic Transitions in Neurological Disease: Modeling, Computation, and Experiment (2012-2013). Joint work with Tasso J. Kaper and Mark A. Kramer
- **Peer Reviewer** for various scientific journals and conference proceedings including *SIAM J Dyn Sys, J Comp Neurosci, J Math Neurosci, J Neurosci, J Neurophysiol, Cerebral Cortex, Chaos, Physica D, Phys Rev E, Biophys J, PLoS, J Theoret Biol, Neural Networks, CNS Meetings*.

- **National Science Foundation Panel Member.**

## Scholarships, Fellowships, Honors and Awards

- **Full Scholarship (expanded on a competitive basis):** MSc studies. Awarded by the **Technion - Israel Institute of Technology**, Haifa, Israel, 10/91 - 07/94.
- **Full Scholarship (expanded on a competitive basis):** PhD studies. Awarded by the **Technion - Israel Institute of Technology**, Haifa, Israel, 08/94 - 07/98.
- **Excellence in Teaching Prize** awarded by the **Technion - Israel Institute of Technology**, Haifa, Israel.
- **Fischbach Fellowship:** postdoctoral research at Brandeis University, awarded by the **Technion - Israel Institute of Technology**, Haifa, Israel, 1999-2001.
- **Dr. César Milstein Fellowship (Subsidio)**, July-August, 2007. Awarded by the *Secretaría de Ciencia, Tecnología e Innovación Productiva; Ministerio de Educación, Ciencia y Tecnología*, Argentina.
- **Dr. César Milstein Fellowship (Subsidio)**, July, 2008. Awarded by the *Secretaría de Ciencia, Tecnología e Innovación Productiva; Ministerio de Educación, Ciencia y Tecnología*, Argentina.
- **Dr. César Milstein Fellowship (Subsidio)**, March-May, 2015. Awarded by the *Ministerio de Ciencia, Tecnología e Innovación Productiva*, Argentina.
- **“Raíces” Prize 2016** (Premio RAICES a la Cooperación Internacional en Ciencia, Tecnología e Innovación). Awarded by the *Ministry of Science, Technology and Innovation*, Argentina.
- **Distinguished Research Award (2017).** College of Science and Liberal Arts, New Jersey Institute of Technology, NJ, USA.

## Teaching Activity

- **Elements of Algebra, Analytical Geometry, Mathematical Analysis.** Served as a **Undergraduate Student Teaching Assistant**, Department of Mathematics, **UNS** - Universidad Nacional del Sur, Bahía Blanca, Argentina. 1988-1989.
- **Physical Chemistry.** Served as a **Teaching Assistant**, Department of Chemistry and Chemical Engineering, **UNS** - Universidad Nacional del Sur, Bahía Blanca, Argentina. 1989-1990.
- **Chemistry.** Served as a **Teaching Assistant.** Department of Chemistry, **TECHNION**, Israel Institute of Technology, Haifa, Israel. 1990-91.

- **Differential Equations, Ordinary Differential Equations, Partial Differential Equations, Linear Algebra, Fourier Series and Integral Transforms, Differential and Integral Calculus.** Served as a **Teaching Assistant**. Department of Mathematics, **TECHNION**, Israel Institute of Technology, Haifa, Israel. 1991-1998.
- **Ordinary Differential Equations, Differential and Integral Calculus and Topics in Mathematics for Students of Medicine II.** Served as a **Instructor**. Department of Mathematics, **TECHNION**, Israel Institute of Technology, Haifa, Israel. 1998-1999.
- **Harmonic Analysis** (for engineering students). Served as a **Lecturer**. School of Mathematical Sciences, **Tel Aviv University**, Israel. 1998-1999.
- **Introduction to Applied Mathematics (Graduate course).** Served as **Invited Lecturer**. Department of Mathematics, **UNS** - Universidad Nacional del Sur, Bahía Blanca, Argentina. 1999
- **Applied Linear Algebra, Techniques of Calculus.** Served as a **Lecturer**. Department of Mathematics, **Brandeis University**, Waltham, MA, USA. 2000-2001.
- **Canard Phenomena in Oscillatory Systems and Some Applications (Special Seminar).** Served as coordinator, overseer and lecturer, Center for Biodynamics, **Boston University**, Boston, MA, USA. 2001-2002.
- **Pattern Formation in Chemistry and Biology (Special Seminar)** Served as coordinator, overseer and lecturer. Center for Biodynamics, **Boston University**, Boston, MA, USA. 2001-2002.
- **Stochastic Differential Equations and Applications (Cross-disciplinary Special Seminar).** Served as coordinator and overseer. Center for Biodynamics, **Boston University**, Boston, MA, USA. 2002.
- **Discrete Math 2, (Graph theory).** Served as a **Lecturer**. Department of Mathematics, **Boston University**, Boston, MA, USA. 2002-2003
- **fMRI (Cross-disciplinary Special Seminar on functional magnetic resonance imaging)** Served as coordinator and overseer, Center for Biodynamics, **Boston University**, Boston, MA, USA. 2003
- **Multivariate Calculus.** Served as a **Lecturer**, Department of Mathematics, **Boston University**, Boston, MA, USA. 2004
- **Canard Phenomena in Oscillatory Systems and Some Applications (Special Seminar).** Served as lecturer, Center for Biodynamics, **Boston University**, Boston, MA, USA. 2005.
- **Topics in Biomathematics** (A dynamical systems approach to the study of chemical, biochemical and neural processes) (**Graduate course**). Served as **Invited Lecturer**. Department of Mathematics, **UNS** - Universidad Nacional del Sur, Bahía Blanca, Argentina. 2006.

- **Differential Equations, Linear Algebra, Calculus I, Calculus II, Calculus III.** Served as **Instructor**. Department of Mathematical Sciences, **NJIT**, New Jersey Institute of Technology, Newark, NJ, USA.
- **Physiology and Medicine** (Mathematical Biology, Undergraduate). Served as **Instructor**. Department of Mathematical Sciences, **NJIT**, New Jersey Institute of Technology, Newark, NJ, USA.
- **Quantitative Neuroscience Core Course** (Graduate). Served as **Instructor**, Quantitative Neuroscience joint program New Jersey Institute of Technology / Rutgers University / University of Medicine and Dentistry of New Jersey, 2007-2008.
- **Analytical and Computational Neuroscience** (Graduate). Served as **Instructor**, Department of Mathematical Sciences, **NJIT**, New Jersey Institute of Technology, Newark, NJ, USA.
- **Systems Computational Neuroscience** (Graduate). Served as **Instructor**, Department of Mathematical Sciences, **NJIT**, New Jersey Institute of Technology, Newark, NJ, USA.
- **Foundations of Mathematical Biology** (Graduate). Served as **Instructor**, Department of Mathematical Sciences, **NJIT**, New Jersey Institute of Technology, Newark, NJ, USA.
- **Foundations of Neuroscience** (Graduate). Served as **Teaching Team Member**. Behavioral Neuroscience Program, Center for Molecular & Behavioral Neuroscience, Rutgers University, Newark, NJ, USA.
- **Honors Methods of Applied Mathematics II (Capstone)** Served as **Instructor**, Department of Mathematical Sciences, **NJIT**, New Jersey Institute of Technology, Newark, NJ, USA.
- **Intermediate Differential Equations (Dynamical Systems)** Served as **Instructor**, Department of Mathematical Sciences, **NJIT**, New Jersey Institute of Technology, Newark, NJ, USA.
- **Mathematical modeling of neuronal systems: a conversation between mathematics and neuroscience.** Served as **Instructor**, Instituto del Cálculo, Facultad de Ciencias Exáctas y Naturales (FCEN), Universidad de Buenos Aires (UBA), Argentina.
- **Computational Systems Neuroscience of Neuronal Oscillations.** Rutgers University Behavioral Neurosciences (BNS) Program, Center for Molecular and Behavioral Neurosciences (CMBN).
- **Introduction to Computational Neuroscience (Graduate & Undergraduate).** Served as **Instructor**, Federated Department of Biological Sciences, **Rutgers University & NJIT**, Newark, NJ, USA.

- **Advanced Computational Neuroscience (Graduate & Undergraduate).** Served as **Instructor**, Federated Department of Biological Sciences, **Rutgers University & NJIT**, Newark, NJ, USA.
- **Proposal Preparation for External Funding (Graduate).** Served as **Instructor**, Federated Department of Biological Sciences, **Rutgers University & NJIT**, Newark, NJ, USA.
- **Introduction to Systems Biology.** Served as **Instructor**, Federated Department of Biological Sciences, **Rutgers University & NJIT**, Newark, NJ, USA.

## Mentoring Activity

### Graduate students and postdoctoral trainees

- Vicent González Boscá (6/1/2021 - current). MSc candidate. Courant Institute of Mathematical sciences, New York University.
- Guillermo Villanueva Benito. MSc candidate. Universitat Politècnica de Catalunya, Mathematics & Physics Program (2021 - 2022).
- Ulises Chialva (4/1/2020 - current). Postdoctoral Fellow. Universidad Nacional del Sur (Bahía Blanca, Buenos Aires) and CONICET (Consejo Nacional de Investigaciones Científicas y Técnicas) Argentina.
- Rodrigo Pena. Postdoctoral Fellow (2/1/2019 - current). New Jersey Institute of Technology.
- Rocio Balderrama. Postdoctoral Fellow (4/1/2017 - 3/30/2019). Universidad de Buenos Aires (Facultad de Ciencias Exactas y Naturales) and CONICET (Consejo Nacional de Investigaciones Científicas y Técnicas) Argentina.
- Andrea Bel. Postdoctoral fellow (9/1/2014 - 8/31/2017), Beginning Investigator (9/1/2017 - current). Universidad Nacional del Sur (Bahía Blanca, Buenos Aires) and CONICET (Consejo Nacional de Investigaciones Científicas y Técnicas) Argentina. Visitor at New Jersey Institute of Technology. Department of Mathematical Sciences.
- Martin Ibarra. Doctoral candidate. Universidad de la Patagonia San Juan Bosco and CONICET (Consejo Nacional de Investigaciones Científicas y Técnicas) Argentina (2020 - current)
- Yugarshi Mondal, PhD 2021. Department of Applied Mathematics. Stony Brook University (2018 - current). Project: *Temporal and Frequency Filters Arising from the Interplay of Time Scales: Cellular, Synaptic, and Synaptic Short Term Dynamics*.
- Ana Stetsenko. Rotation student. Behavioral Neurosciences (BNS) Program, Center for Molecular and Behavioral Neurosciences (CMBN), Rutgers University (2018).

- Omar Itani (2017 - current). Doctoral candidate. Federated Department of Biological Sciences, Rutgers University and New Jersey Institute of Technology (Rotation: 2017)
- Juliana Reves Szemere (2018 - 2022). Doctoral candidate. Expected graduation: 3/2022. Universidad de Buenos Aires and CONICET (Consejo Nacional de Investigaciones Científicas y Técnicas) Argentina. Co-advised with A. Ventura.
- David Fox. PhD 2017. Federated Department of Biological Sciences, Rutgers University and New Jersey Institute of Technology. Co-advised with F. Nadim. Project: *The frequency dependent dynamics of modulator actions.*
- Randolph J. Leiser. PhD 2017. New Jersey Institute of Technology. Project: *Effect of individual oscillators heterogeneity on network dynamics with applications to pancreatic beta cell networks.*
- Emel Khan (2016 - 2021). MSc 2017. Department of Mathematical Sciences, New Jersey Institute of Technology. Co-advised with C. Diekman. Project: *Preferred voltage response to oscillatory parametric inputs in neuronal models.*
- Takuya Ito. Rotation Student. Behavioral Neurosciences (BNS) program, Rutgers University.
- Hoa Pham. Research MD student. Rutgers Medical School.
- Axel Turnquist. Department of Mathematical Sciences, New Jersey Institute of Technology.
- Yinbo Chen. MSc 2015. Federated Department of Biological Sciences, Rutgers University and New Jersey Institute of Technology. MsC Project: *Dynamic influence of membrane potential resonance on network dynamics.* Co-advised with F. Nadim.
- Oscar Flodin. MSc Research Student. 9/1/2014 - 8/31/2015. New Jersey Institute of Technology. Department of Mathematical Sciences. Exchange student from Lund University, Sweden. Project: *Conductance correlation mechanisms in a neuronal network.*
- Craig Schindewolf. MSc 2012. New Jersey Institute of Technology. Department of Mathematical Sciences. Project: *Abrupt transitions between firing frequency regimes in recurrently excited neuronal networks.*
- Motolani Olarinre. MSc 2013. New Jersey Institute of Technology. Department of Mathematical Sciences. Co-advised with J. Golowasch. Project: *Dynamic compensation mechanisms in oscillatory neuronal models.*
- Nima Sheikholeslami. Rotation Student. 2009-2010. Rutgers University. Computational Neuroscience MSc program.
- Dongwook Kim. PhD 2011. New Jersey Institute of Technology. Department of Mathematical Sciences. PhD thesis. *The effects of periodic and non-periodic inputs on the dynamics of medial entorhinal cortex layer II stellate cells.*

- Hui Wu. PhD 2010. New Jersey Institute of Technology. Department of Mathematical Sciences. PhD thesis. *Pattern formation in oscillatory systems*.
- Federico Contiggiani. PhD 2010. Universidad Nacional del Sur, Bahía Blanca, Buenos Aires, Argentina. Co-advised with F. Tohmé. Thesis: *Estudios de la economía del comportamiento y la neuroeconomía (Studies on Behavioral Neuroscience and Neuroeconomics)*.
- Tim Oppermann. PhD 2005. Humboldt University zu Berlin, Berlin, Germany. Institute for Theoretical Biology. Co-advised with A. Herz. PhD thesis. *Rhythmic activity in medial entorhinal cortex stellate cells: The underlying dynamical structure and its analysis*.

### Undergraduate students

- Suhas Parise - Federated Department of Biological Sciences, NJIT/Rutgers (2021 - current)
- Jonah Eng - Department of Computer Sciences, NJIT (2021-current)
- Guillermo Villanueva Benito - Universitat Politècnica de Catalunya, Mathematics & Physics Program (2020 - 2021).
- Nicholas Ramella - Department of Mathematical Sciences, NJIT (Summer 2020)
- Rajeev Botadra - Federated Department of Biological Sciences, NJIT/Rutgers (Summer 2020)
- Dylan Lederman - Federated Department of Biological Science, NJIT/Rutgers (2019-current).
- Shiva Sentilkhumar - Federated Department of Biological Science, NJIT/Rutgers (2019-current)
- Raghav Patel - Department of Computer Sciences, NJIT (2018-20).
- Pedro Vazquez Perez - MBI undergraduate research project *conductance correlations*. Jointly with J. Golowasch (2017).
- Adam Willerth - MBI undergraduate research project *Iterativity and resonance in the locomotor network of Caenorhabditis elegans* (2017)
- Joseph Ballardo. EXTREEMS undergraduate research project *Data driven biophysical modeling of neuronal dynamics*. Jointly with C. Dieckman (2016).
- Nilanjan Haldar. EXTREEMS undergraduate research project. *Data driven biophysical modeling of neuronal dynamics*. Jointly with C. Dieckman (2016).
- Jonathan Dougherty. EXTREEMS undergraduate research project. *Data driven biophysical modeling of neuronal dynamics*. Jointly with C. Dieckman (2016).

- Fremy Santana. Summer 2013. New Jersey Institute of Technology, Department of Mathematical Sciences. Undergraduate project: *Dynamics of networks of oscillatory neurons*. Jointly with A. Bose.
- Kelvin Rivera. Summer 2013. New Jersey Institute of Technology, Department of Mathematical Sciences. Undergraduate project: *Dynamics of networks of oscillatory neurons*. Jointly with A. Bose.
- Malena Español. BSc 2005. Universidad de Buenos Aires, Argentina. Department of Mathematics. Co-advised with G. Acosta. Undergraduate thesis: *Dynamical study of oscillatory chemical reactions: control using periodic external forcing*.

## International Conferences

### Organization

- [1] **SIAM Conference on Applications of Dynamical Systems, May 27 - 31, 2003, Snowbird, UT, USA.** Organization of the Minisymposium on **Localized and Synchronized Patterns Via Local and Nonlocal Interactions, parts I and II**. Joint work with Rachel Kuske.
- [2] **SIAM Conference on the Life Sciences, July 10 - 14, 2004, Portland, OR, USA.** Organization of the Minisymposium on **Canards in the Life Sciences I: Oscillation Patterns via a Canard Phenomenon**. Joint work with Martin Wechselberger.
- [3] **SIAM Conference on the Life Sciences, July 10 - 14, 2004, Portland, OR, USA** Organization of the Minisymposium on **Canards in the Life Sciences II: Neuronal Patterns and Dynamics**. Joint work with Martin Wechselberger.
- [4] **SIAM Conference on Applications of Dynamical Systems, May 22-26, 2005, Snowbird, UT, USA.** Organization of the Minisymposium on **The Canard Phenomenon: Mechanisms in Chemical, Biochemical and Biological Systems, parts I and II**. Joint work with Martin Wechselberger.
- [5] **Computational Neuroscience (CNS) Meeting, Jul 16-20, 2006, Edinburgh, UK.** Organization of the Workshop on **Phase Response Curves: Where Theory and Experiments Intersect**. Joint work with Theoden Netoff.
- [6] **NEUROMATH 06 - Conference on Mathematical Neuroscience** (a satellite activity of the International Congress of Mathematicians 2006), **Sep 1-4, 2006, Sant Julià de Lloria, Andorra**. Member of the Scientific Committee.
- [7] **SIAM Conference on Applications of Dynamical Systems, May 28 - Jun 1, 2007, Snowbird, UT, USA.** Organization of the Minisymposium on **Mixed-Mode Oscillations: Dynamics and Mechanisms, parts I and II**. Joint work with Martin Wechselberger and Nicola Popović.

- [8] **SIAM Conference on Applications of Dynamical Systems, May 28 - Jun 1, 2007, Snowbird, UT, USA.** Organization of the Minisymposium on **Rhythms in Neural Dynamics, parts I and II.** Joint work with Jozsi Jalic and Stefanos Folias.
- [9] **Computational Neuroscience (CNS) Meeting, Jul 18-23, 2009, Berlin, Germany.** Organization of the Workshop on **Cortical Oscillations.** Joint work with Caroline Geisler.
- [10] **Frontiers in Applied and Computational Mathematics (FACM), June 1-2, 2009, Newark, NJ, USA.** Member of the Scientific Committee.
- [11] **Spring 2010 Eastern Sectional Meeting of the American Mathematical Society (AMS), May 22-23, 2010.** Organization of the Minisymposium on **Mathematical Neuroscience: modeling, analysis and simulations.**
- [12] **4th Argentine School of Mathematics and Biology (BIOMAT IV), Aug 2-4, 2010, Córdoba, Argentina.** Member of the Scientific Committee.
- [13] **Frontiers in Applied and Computational Mathematics (FACM), June 9-11, 2011, Newark, NJ, USA.** Member of the Organizing Committee.
- [14] **2011 International Joint Conference on Neural Networks (IJCNN), Jul 31 - Aug 5, 2011, San Jose, CA, USA** Program Committee Member. (International Neural Network Society & IEEE Computational Intelligence Society.)
- [15] **Frontiers in Applied and Computational Mathematics (FACM), May 31 - Jun 2, 2013, Newark, NJ, USA.** Member of the Organizing Committee.
- [16] **2013 International Joint Conference on Neural Networks (IJCNN), August 4 - 9, 2013, Dallas, TX, USA** Program Committee Member. (International Neural Network Society & IEEE Computational Intelligence Society.)
- [17] **Computational Neuroscience Meeting (CNS-2014), Jul 26-31, 2014, Quebec City, Canada.** Organization of the Workshop on **Cortical Oscillations: Computational models and dynamic mechanisms.** Joint work with Mark Kramer.
- [18] **Computational Neuroscience Meeting (CNS-2015), Jul 18-23, 2015, Prague, Czech Republic.** Organization of the Workshop on **Neuronal Oscillations: Computational models and dynamic mechanisms.**
- [19] **Mathematical Biology International Workshop: “Mathematics as tool to understand biology / Biology as a source of mathematical problems”, April 23-24, 2015, Buenos Aires, Argentina.** Scientific and Organizing Committee, Chair.
- [20] **VI Argentine Congress of Bioinformatics and Computational Biology (CAB2C-2015), October 14-16, 2015, Bahía Blanca, Buenos Aires, Argentina.** Member of the Program Committee.
- [21] **Analysis of Complex Data in Biological Systems, MBI Emphasis Semester, Fall 2016, MBI, OSU, USA** Member of the Organizing Committee.

- [22] **Dynamical Systems and Data Analysis in Neuroscience: Bridging the Gap, October 17-21, 2016, MBI Emphasis Semester Workshop, MBI, OSU, USA** Member of the Organizing Committee.
- [23] **VI Congreso de matemática aplicada, computacional e industrial (VI MACI 2017), May 2-5, 2017, Comodoro Rivadavia, Chubut, Argentina** Member of the Organizing Committee.
- [24] **International Conference of Mathematical Neuroscience (ICMNS 2017), May 30 - June 2, Boulder, CO, USA** Member of the Program Committee.
- [25] **XIV Congreso Dr. Antonio Monteiro, May 31 - June 2, 2017, Bahía Blanca, Buenos Aires, Argentina.** Member of the Scientific Committee.
- [26] **Computational Neuroscience Meeting (CNS-2017), Jul 15-20, 2017, Antwerp, Belgium.** Organization of the Workshop on Neuronal Oscillations: Mechanisms and functionality. Joint work with Frances Skinner and Vassilis Cutsuridis.
- [27] **International Conference of Mathematical Neuroscience (ICMNS 2018), June 11 - 13, 2018, Juan Les Pins, France** Member of the Program Committee.
- [28] **Escuela Latinoamericana de Modelado de Sistemas Biológicos (Latin American School on Modeling of Biological Systems), January 7 - 18, 2019, Ciudad Autónoma de Buenos Aires, Argentina.** Organizer.
- [29] **Workshop on “Present and Future Theoretical Frameworks in Neuroscience”, February 3-8, 2019, San Antonio, TX** Organizer. Joint work with Fidel Santamaría.
- [30] **International Conference of Mathematical Neuroscience (ICMNS 2019), June 24 - 26, 2019, Copenhagen, Denmark** Member of the Program Committee.
- [31] **Computational Neuroscience Meeting (CNS-2019), Jul 13-17, 2019, Barcelona, Catalunya.** Organization of the Workshop on Neuronal Oscillations: Mechanisms, computational properties and functionality. Joint work with Adrien Peyrache and Vassilis Cutsuridis.
- [32] **XLIII Annual Meeting of the Brazilian Society for Neurosciences, Oct 13-17, 2020 Online (Covid-19)** . Short course: Introduction to modeling and data analysis tools to capture resonance phenomena Joint work with A. Roque and R. F. O. Pena.
- [33] **Bernstein Conference Workshop 2021, Sep 21-23, 2021 Online (Covid-19)** Frequency-preference responses to external perturbations: from neurons to networks Joint work with R. Pena.
- [34] **2021 CRCNS Principal Investigators Meeting, Oct 7-9, 2021, New York City, NY, USA.** Committee member. Joint work with Z. Chen, B. Pesaran, S. Shoam, J. Basu, C. Savin and D. Chklovskii.

## Participation

- [1] **I International Conference on Functional Differential Equations, Israel, June 29 - July 2, 1998**, Phase field equations with memory. Joint work with Alexander Domoshnitsky and Alexander Nepomnyashchy.
- [2] **12th International Congress of Crystal Growth - Workshop on Phase Field Models, Jerusalem, July 1998**. Hyperbolic non-conserved phase field equations. Joint work with Alexander Nepomnyashchy and Amy Novick-Cohen.
- [3] **12th International Congress of Crystal Growth, - Workshop on Phase Field Models Jerusalem, July 1998**. Hyperbolic flow by mean curvature. Joint work with Simon Brandon and Amy Novick-Cohen.
- [4] **Nonlinear Partial Differential Equations and Applications: Interfaces in Continuous Media, Lisboa, March 1-5, 1999**. Front motion for phase transitions in systems with memory (invited speaker), Joint work with Alexander I. Domoshnitsky and Alexander A. Nepomnyashchy.
- [5] **III International Conference on Complex Systems, Nashua, NH, USA, May 21-26, 2000**. Distribution patterns due to diffusion in a coagulation fragmentation process with cluster-wall interactions. Joint work with Rina Tannenbaum.
- [6] **International Workshop on Dissipative Solitons, Nonlinear Excitations (lattices) and High-T Super Conductivity, Instituto Pluridisciplinar, Universidad Complutense de Madrid, Madrid, Spain June 23-26, 2000**. Bistable reaction diffusion equations with quasi-discrete sources of reaction. Joint work with Anatol Zhabotinski and Irving Epstein.
- [7] **Conference on Differential Equations and Dynamical Systems (in honor of Waldyr Oliva), Lisboa, Portugal, June 26-30, 2000**. Bistable reaction diffusion equations with quasi-discrete sources of reaction. Joint work with Anatol Zhabotinski and Irving Epstein.
- [8] **Symposium on the Liquid Phase Synthesis of Nanoparticles, AIChE Fall 2000 National Meeting, November 12-16, 2000, San Francisco, California**. Polymer-Induced Metal Nanoparticle Aggregation. Joint work with Rina Tannenbaum and Erika Heitman.
- [9] **International Conference on Emergence in Chemical Systems, Jun 20-22, 2002, Anchorage, Alaska, USA**. A Canard Mechanism of Oscillations in Chemical Systems. Joint work with Nancy Kopell, Anatol M. Zhabotinsky and Irving R. Epstein.
- [10] **Gordon Conference on Oscillations and Dynamical Instabilities in Chemical Systems, July 28 - August 2, 2002, Oxford, UK**. A Canard Mechanism of Localization of Oscillations in Chemical Systems. Joint work with Nancy Kopell, Anatol M. Zhabotinsky and Irving R. Epstein.

- [11] **2002 Annual Meeting of the Society for Neuroscience (SFN), November 2 - 7, 2002, Orlando, FL, USA.** A Model of an inhibition-based atropine-resistant theta frequency oscillation in CA1 in vitro. Joint work with Martin Gillies, Miles A. Whittington, Eberhardt H. Buhl and Nancy Kopell.
- [12] **SIAM Conference on Applications of Dynamical Systems, May 27 - 31, 2003, Snowbird, UT, USA.** Slow and fast inhibition interact to create a theta rhythm in CA1. Joint work with Martin Gillies, Miles A. Whittington, Eberhardt H. Buhl, Corey D. Acker, John A. White and Nancy Kopell.
- [13] **SIAM Conference on Applications of Dynamical Systems, May 27 - 31, 2003, Snowbird, UT, USA.** Localization of oscillations in a mathematical model of the BZ reaction. joint work with Nancy Kopell, Anatol M. Zhabotinsky and Irving R. Epstein.

- [122] **Neurobiology of Cognition Gordon Conference, July 22-27 2018, Newry, ME, USA.** Neural Circuits Supporting Cognitive Function A dynamical systems model of intrinsic and evoked activity, variability and functional connectivity. Joint work with T. Ito and M . W. Cole
- [123] **Bernstein Conference on Computational Neuroscience, Workshop on 'Resonance in neurons and neural networks: theoretical and experimental approaches', September 25-26, 2018, Berlin, Germany.** From subthreshold neuronal resonance to network resonance.
- [124] **2018 Annual Meeting of the Society for Neuroscience (SFN), November 3 - 7, 2018, San Diego, CA, USA.** Distinct mechanisms underlie electrical coupling resonance and membrane potential resonance Joint work with Xinpeng Li, Farzan Nadim.
- [125] **2018 Annual Meeting of the Society for Neuroscience (SFN), November 3 - 7, 2018, San Diego, CA, USA.** Modification of ion channel gene expression regulates the expression of multiple ionic currents. Joint work with Jorge P. Golowasch, Daniel H. Daudelin, David J. Schulz. 375.01
- [126] **2018 Dana Knox Student Research Showcase, Apr 18, 2018, New Jersey Institute of Technology, NJ, USA.** The Effects of Synaptic Conductance Regulation on Conductance Correlations in an Activity Based Sensor Model. Joint work with O. Itani and J. Golowasch
- [127] **2019 Dana Knox Student Research Showcase, Apr 17, 2019, New Jersey Institute of Technology, NJ, USA.** Mechanistic investigation of degenerate conductance correlations from an activity dependent homeostatic rule. Joint work with O. Itani and J. Golowasch.
- [128] **Computational Neuroscience Meeting (CNS-2019), Workshop on Interneuron diversity and function, July 13-17, 2019, Barcelona, Catalunya.** Post-inhibitory rebound interacts with preventing or deleting mechanisms to generate theta spiking resonance in hippocampal CA1 pyramidal cells.
- [129] **Computational Neuroscience Meeting (CNS-2019), Workshop on Neuronal Oscillations: mechanisms, computational properties and functionality, July**

- 13-17, 2019, Barcelona, Catalunya.** Resonance-based mechanisms of generation of oscillations in non-oscillatory neurons.
- [130] **Society for Mathematical Biology Annual Meeting (2019), Workshop on Mathematical Modeling of Neuronal Networks, July 20-23, Montreal, Quebec.** Resonance-based mechanisms of generation of oscillations in non-oscillatory neurons.
- [131] **StatPhys 27, Jul 8, 2019, Buenos Aires, Argentina.** Studying the limitations of Michaelis-Menten approximation to describe the response to pulsatile inputs Joint work with J. Reves-Szemere and A. Ventura. Statistical Physics in Biological Networks
- [132] **Statistical Physics of Biological Networks (2020), Puerto Madryn, Chubut, Argentina, March 2-5, 2020.** Studying signal termination compartment and frequency preference emergence in phosphorylation-dephosphorylation cycles. Joint work with J. Reves-Szemere and A. C. Ventura.
- [133] **Neuromatch 2.0. An unconference in Computational Neuroscience, May 25-27, 2020, Online -19).** Modeling theta-band resonance in a neocortical circuit. Joint work with R. F. O. Pena
- [134] **International Conference on Mathematical Neuroscience (ICMNS), July 6 & 7, 2020, Digital (Covid-19).** Competitive Threshold Linear Networks: limit cycles and their response to periodic inputs Joint work with A. Bel and W. Reartes
- [135] **International Conference on Mathematical Neuroscience (ICMNS), July 6 & 7, 2020, Digital (Covid-19).** Biophysics and dynamics shape the cross-correlation properties of monosynaptic connections Joint work with R. Pena
- [136] **International Conference on Mathematical Neuroscience (ICMNS), July 6 & 7, 2020, Digital (Covid-19).** Mechanisms by which Synaptic Short-term Plasticity Creates Temporal FiltersffJoint work with Y. Mondal and R. Pena
- [137] **Computational Neuroscience Meeting (CNS-2020), July 18-22, 2020, Online (Covid-19).** Entrainment of competitive threshold-linear networks. Joint work with A. Bel and Walter Reartes
- [138] **Computational Neuroscience Meeting (CNS-2020), July 18-22, 2020, Online (Covid-19).** Modeling theta-band resonance in a neocortical circuit. Joint work with R. F. O. Pena
- [139] **Computational Neuroscience Meeting (CNS-2020), July 18-22, 2020, Online (Covid-19).** Neuronal resonance may not be apparent, but still present, for realistic input signals using standard impedance measurements Joint work with R. F. O. Pena, U. Chialva
- [140] **Computational Neuroscience Meeting (CNS-2020), July 18-22, 2020, Online (Covid-19).** Biophysics and dynamics shape the cross-correlation properties of monosynaptic connections Joint work with R. F. O. Pena

- [141] **Computational Neuroscience Meeting (CNS-2020), July 18-22, 2020, Online (Covid-19).** Synaptic short-term plasticity and temporal filters: interplay of synaptic and postsynaptic dynamics. Joint work with Y. Mondal and R. F. O. Pena
- [142] **Computational Neuroscience Meeting (CNS-2020), July 18-22, 2020, Online (Covid-19).** The monosynaptic inference problem: linking statistics and dynamics in ground truth models. Joint work with Z. Saccomano, R. Pena, S. McKenzie and A. Amarasingham
- [143] **Dynamic Days 2020, August 24 - 28, 2020, Online (Covid-19).** Periodic solutions in threshold-linear networks and their response to periodic input. Joint work with A. Bel and Walter Reartes
- [144] **Dynamic Days 2020, August 24 - 28, 2020, Online (Covid-19).** Synaptic short-term plasticity and temporal filters: interplay of synaptic and postsynaptic dynamics. Joint work with Y. Mondal and R. Pena
- [145] **Dynamic Days 2020, August 24 - 28, 2020, Online (Covid-19).** Revealing the link between spiking cross-correlation patterns and the underlying subthreshold neuronal dynamics. Joint work with R. Pena
- [146] **Bernstein Conference 2020, Sep 20 - Oct 2, 2020, Online (Covid-19).** Biophysics and dynamics shape the cross-correlation properties of monosynaptic connections. Joint work with R. Pena
- [147] **Bernstein Conference 2020, Sep 20 - Oct 2, 2020, Online (Covid-19).** Theta-band resonance in a neocortical circuit. Joint work with R. Pena
- [148] **XLIII Annual Meeting of the Brazilian Society for Neurosciences, Oct 13-17, 2020, Online (Covid-19) .** Resonances in networks: communication of resonances across neurons in networks. Short course: Introduction to modeling and data analysis tools to capture resonance phenomena Joint work with A. Roque and R. F. O. Pena.
- [149] **XLIII Annual Meeting of the Brazilian Society for Neurosciences, Oct 13-17, 2020, Online (Covid-19) .** Characterizing neocortical theta-band resonance. Joint work with R. F. O. Pena.
- [150] **MACI-2021, VIII Meeting of the Argentine Society for Industrial and Applied Mathematics, May 3-7, 2021, Online (Covid-19).** Short course: Parameter estimation unidentifiability in models and degeneracy in biological systems: two faces of the same coin.
- [151] **MACI-2021, VIII Meeting of the Argentine Society for Industrial and Applied Mathematics, May 3-7, 2021, Online (Covid-19).** The effect of homeostatic processes in minimal neuronal circuits. Joint work with M. Ibarra and G. Soto.
- [152] **MACI-2021, VIII Meeting of the Argentine Society for Industrial and Applied Mathematics, May 3-7, 2021, Online (Covid-19).** Interaction between frequency filters in non-oscillatory neuronal networks. Joint work with A. Bel.

- [153] **MACI-2021, VIII Meeting of the Argentine Society for Industrial and Applied Mathematics, May 3-7, 2021, Online (Covid-19).** Interaction between intrinsic dynamics and noise in a neuronal model of hippocampal pyramidal cells. Joint work with U. Chialva.
- [154] **MACI-2021, VIII Meeting of the Argentine Society for Industrial and Applied Mathematics, May 3-7, 2021, Online (Covid-19).** Interaction between segregated resonant mechanisms in hippocampal CA1 pyramidal neurons. Joint work with U. Chialva.
- [155] **Functional Logic of Neural Circuits: Diamonds in the Rough, June 10-11, 2021, Virtual (Covid-19).** What do we mean by brain computations? A battle of metaphors.
- [156] **Computational Neuroscience Meeting (CNS-2021), July 3-7, 2021, Online (Covid-19).** Frequency filter interactions in networks of non-oscillatory cells. Joint work with A. Bel.
- [157] **Computational Neuroscience Meeting (CNS-2021), July 3-7, 2021, Online (Covid-19).** Segregated resonant mechanisms in CA1 pyramidal cells: interplay of ionic currents and cells spatial structure. Joint work with U. Chialva.
- [158] **Computational Neuroscience Meeting (CNS-2021), July 3-7, 2021, Online (Covid-19).** Network patterns emerging from the interplay of lateral inhibition and the intrinsic properties of striatal MSNs. Joint work with V. G. Bosca, D. Burke and V. Alvarez.
- [159] **Computational Neuroscience Meeting (CNS-2021), July 3-7, 2021, Online (Covid-19).** Neuronal oscillations level sets for activity constancy: from single neurons to networks. Joint work with G. Villanueva Benito, O. Itani, S. More-Potdar and J. Golowasch.
- [160] **Computational Neuroscience Meeting (CNS-2021), July 3-7, 2021, Online (Covid-19).** Flexible selection of cognitive tasks and memory suppression in a hippocampus prefrontal cortex network regulated by the nucleus reuniens. Joint work with R. F. O. Pena
- [161] **Computational Neuroscience Meeting (CNS-2021), July 3-7, 2021, Online (Covid-19).** Revealing the link between spiking cross-correlation patterns and the underlying subthreshold neuronal dynamics. .Joint work with R. F. O. Pena
- [162] **CRCNS PIs Meeting 2021, Oct 7 -9, 2021, New York, NY, USA,.** Neuronal resonance can be generated at multiple levels of organization. Joint work with E. Stark.
- [163] **2021 Annual Meeting of the Society for Neuroscience (SFN), November 13 - 16, 2021, Chicago, IL, USA.** Revealing the Link between Spiking Cross-Correlation Patterns and the Underlying Subthreshold Dynamics: oscillations and resonances. Joint work with R. F. O. Pena

- [164] **2021 Annual Meeting of the Society for Neuroscience (SFN), November 13 - 16, 2021, Chicago, IL, USA.** Resonance-based flexible selection of cognitive tasks and memory suppression in a hippocampus prefrontal cortex network regulated by the nucleus reuniens. Joint work with R. F. O. Pena
- [165] **2021 Annual Meeting of the Society for Neuroscience (SFN), November 13 - 16, 2021, Chicago, IL, USA.** Excitatory neuromodulation reduces inter-animal variability of neuronal activity. Joint work with O. Itani, A. C. Schneider, D. M. Bucher and F. Nadim
- [166] **2021 Annual Meeting of the Society for Neuroscience (SFN), November 13 - 16, 2021, Chicago, IL, USA.** Statistical estimation of synaptic coupling with confounding background influences. Joint work with S. McKenzie, Y. Zhang, R. Huszar, Z. Saccomano, T. Donaldson, A. Amarasingham and G. Buzsaki
- [167] **Dynamical Systems Applied to Biology and Natural Science - DSABNS 2022, February 8-11, 2022, Bilbao, Basque Country, Spain (online).** Public talk / Keynote speaker. Resonance-based mechanisms of generation of oscillations in networks of non-oscillatory neurons. Joint work with A. Bel.
- [168] **Cold Spring Harbor Laboratory (CSHL) Meeting: Neuronal Circuits, March 16-19, 2022.** A framework for neuromodulation in multilayered neural networks *C. elegans* as a case study. Joint work with G. Haspel and A. Zaslaver.
- [169] **Network Neuroscience 2022 - NetSci 2022 Affiliate Satellite, July 11-12, 2022 (Online).** Intrinsic ionic dynamics, oscillations, and resonance are reflected in and can be extracted from neuronal spike-train cross-correlations. Joint work with R. F. O. Pena and M. Ibarra

## Participation in International Courses

- [1] **International School of Mathematics on "Free Boundary Problems in Mathematics and Industry", Santander, Spain, 21 – 25 August, 1995.** *Fellowship by the European Science Foundation, Free Boundary Programme.*
- [2] **International School on "Pattern Formation, Interfacial Dynamics and Crystal Growth", Toledo, Spain, 3 – 7 June, 1996.** *Fellowship by the European Science Foundation, Free Boundary Programme.*

## Memberships

- **Society for Industrial and Applied Mathematics (SIAM).**
- **American Mathematical Society (AMS).**
- **Society for Neuroscience (SFN).**
- **Organization for Computational Neuroscience (OCNS).**

## Additional Information

- **Programming skills:** C, Matlab, XPP.
- **Department of Chemistry Board, Universidad Nacional del Sur, Bahía Blanca, Argentina.** Served as **member** (student).
- **University Board, Universidad Nacional del Sur, Bahía Blanca, Argentina.** Served as **member** (student).

**Further information** about invited talks and courses taken as part of my graduate or undergraduate studies as well as courses not included in those programs, social, cultural and political interests and activities may be supplied or discussed personally.
