

### Logging into AFS machines from Windows:

1. Type putty.exe into the Google search bar and download the program onto your Desktop.
2. Double click on the program and type in the name of an AFS machine in the “Host Name” box. For example afs2.njit.edu
3. Now enter your UCID username and password. This should be the same as your AFS username and password.

### Logging into AFS machines from Mac:

1. Start the terminal program
2. Type in “ssh -l <your UCID> afs2.njit.edu” after replacing <your UCID> with yours.
3. Enter your UCID username and password.
